**September 28, 2009** (Salem, NH) — Cassiopae U.S., Inc., a leading provider of global asset finance software, has been selected as part of The Situs Companies' initiative to provide technology advances to the commercial real estate industry. Situs, a leader in global commercial real estate solutions, will use Cassiopae's commercial real estate software as its in-house servicing system. The software will help the company streamline processes, improve visibility across product lines, and mitigate risk. Situs customers include prominent financial institutions, institutional investors, private owners, and developers.

"Cassiopae's loan servicing software offers the flexibility to support our clients worldwide. It provides comprehensive commercial loan management," says Bruce Nelson, Situs global head of Asset Management. "With a single point of entry, Cassiopae improves efficiency, eliminates redundant data, reduces errors, and lowers maintenance and operating costs."

Cassiopae software is highly configurable and includes multi-lingual, multi-currency capabilities that enable Situs to manage European and US servicing operations using a single database housed in Houston, TX. Integrated workflow simplifies the management of complex commercial real estate loans and assets.

"With Cassiopae loan software, Situs can support insurance companies, banks, government agencies, private equity investors, and opportunity funds with a single servicing system. Cassiopae is unique in its

ability to address such diverse requirements. This is a distinct advantage for Situs and our clients," adds Nelson.

"Situs is recognized as an innovator," says Noel Webster, Cassiopae president. "We are proud to be a strategic component of the industry-leading solutions they deliver."

The Situs Companies employs real estate professionals throughout the U.S., Europe, and Asia to deliver commercial real estate services and business solutions to leading investment banks, institutional investors, private owners, and various other commercial real estate debt and equity participants.
